PROJECT

FastFeast | Fast Food Delivery Application (Team Project)   Live| Client
A modern fast-food delivery platform offering smooth navigation, efficient menu management, and a seamless ordering experience.

- **User-Friendly Interface**: Designed with a clean and responsive interface, the platform ensures a smooth food-ordering experience, allowing users to easily browse menus, navigate pages, and place orders with minimal effort.
- **Filtering**: The system supports real-time menu updates, overview modifications, and dynamic content handling, enabling restaurant owners to manage their items efficiently.
- **Dashboard**: The platform includes structured sections for Overview, Manage Menus, and Add Menu pages, each providing dedicated features for streamlined restaurant management.

SpeakStack – Forum & Post Sharing Platform   Live | Client
An online community platform where users can create posts, engage with content, and interact through voting, commenting, and reporting.

- **User-Friendly Interface**: Built with a simple and intuitive UI, the platform allows users to easily create posts, browse content, search by tags, and engage with community discussions effortlessly.
- **Filtering**: Features voting, commenting, reporting, and popularity-based sorting, ensuring users can interact with posts in a meaningful and organized way.
- **Dashboard**: Includes role-based dashboards for Users and Admins, each offering unique tools for managing content, moderation, and reports.

Academix – Local Hobby Group Organizer   Live | Client
A platform where users can create, join, and manage hobby-based community groups with a smooth and modern user experience.

- **User-Friendly Interface**: Designed with a clean and responsive UI, allowing users to effortlessly explore hobby groups, join activities, and manage their profiles with ease.
- **Filtering**: Includes Firebase authentication (email & social login) along with JWT-protected routes, ensuring secure and reliable access for all users.
- **Dashboard**: Provides dedicated features for users to create groups, manage memberships, participate in community activities, and interact with shared interests efficiently.
